CIVICUS IN COOPERATION WITH OHCHR INVITES YOU TO A DISCUSSION ON

‘POST-2015 DEVELOPMENT AGENDA AND ACCOUNTABILITY: A DATA REVOLUTION ANCHORED IN HUMAN RIGHTS TO MAKE THE SDGs A REALITY FOR ALL’

19 JANUARY 2015

The objective of the event organized by CIVICUS, in cooperation with the Office of the United Nations High Commissioner for Human Rights (OHCHR), is to share information and discuss the potential roles of the data revolution and of the work of human rights mechanisms in the implementation and monitoring of the SDGs.

In this context, the event will also address the critical role that civil society can play in the data revolution, in the development, collection and analysis of SDG-relevant data and indicators, and more generally in the implementation of a transformative Post-2015 development agenda. Cooperation among the different State and non-State actors, data producers and users, in monitoring the SDGs at the national, regional and global levels will be explored.

Refreshments will be provided
