In Action

Where on this scale do most of your members fit?

Where are the gaps?

What might you need to do to fill those gaps?

If there are youth currently engaged in your organisation/network, where are they on the scale?

Using the scale as a framework - what is your engagement goal for youth?

Brainstorm how you will go about achieving this engagement goal (i.e. if the goal is to move more youth from curious to guests, what are some actions you could take to achieve this?)

What are some actions you commit to taking to advance the participation of youth in your network or organisation?

How do the answers to these questions contribute and add to the development of your overall youth strategy?

Develop the context portion of your youth strategy further, begin to identify goals and objectives and brainstorm some potential tasks or action items.
